HC

DETAILED ACTION

1. This office action is in response to the amendment filed on 11/1/2004.
2. Claims 1-39 are pending.
3. The previous rejections to claims 1-39 under 35 U.S.C. 112 are withdrawn in view of applicant's amendment and arguments.

Claim Rejections - 35 USC § 112

4. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

The term in claims 1-39 is a relative term which renders the claim indefinite. The term "LYEE development method" is not defined by the claim, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably appraised of the scope of the invention. Specifically, the standard or procedure for "LYEE development method" could change over time, the specification does not provide a standard for ascertaining the requisite degree, and one of ordinary skill in the art would not be reasonably appraised of the scope of the invention.

Claim Rejections - 35 USC § 101

5. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Art Unit: 2191

Claims 31-38 are directed to non-statutory subject matter. Specifically, claims 31-38 claim "a recording medium" which is not limited to tangible embodiments. The specification does not define specifically what is included in the recording medium. Therefore, the recording medium could be non-tangible. As such, the claim is not limited to statutory subject matter and is therefore non-statutory.
